## MK05 DELECT | CREDITS

---

A big thank you goes out to Chris De Luca and Leonard De Leonard of DELECT for their contribution to what we hope will be a long legacy of Micro Kits releases by Twisted Tools.

Please check out and support DELECT's work:

## 1.1. What are Micro Kits?

Twisted Tools MICRO KITS is a series of small and affordable drum kit sample packs, designed by cutting edge artists and sound designers. Each MICRO KITS release will feature 5 drum kits, formatted for Maschine, Battery, Kontakt, Ableton, Reaktor and EXS24. Expect frequent releases from other great artists in the months to come!

Micro Kits 05 by Delect comes with 5 masterfully designed electronic drum kits by electronic duo Delect, a new collaboration between Chris De Luca [Funkstörung] and Leonard de Leonard [Leonizer Rec.]. The kits will work in nearly any electronic genre, from techno to hip hop.

The sample pack's kits are formatted for a wide variety of samplers, providing instant inspiration within nearly any type of production environment. Additionally, MK05 features a custom Reaktor map and presets for Twisted Tools S-LAYER. By harnessing the power of S-LAYER'S advanced randomization and sample layering engine, the possibilities for generating new content from MK05 is literally endless. MK05 comes with over 40 S-LAYER kits and generator presets to get you started.

## 1.2. About DELECT

**About Delect** - The Neapolitan-Bavarian de Luca and the Parisian-Berliner Leonard decided to join forces in 2011 and create their own melting pot. The result of this culture clash is officially called DELECT.

Only the highest quality organic ingredients go into their delicious, aromatic creations. Freshly imported Neapolitan espresso fuels the duo as they develop new sound forms. Their complex arrangements elegantly flow on each of their high tech productions.

**About Chris De Luca** - As Funkstörung, CLP and as a solo artist, Chris de Luca released an uncountable amount of records on IK7, Boysnoize Rec, Shitkatapult and many more. His remixes for Björk, Wu-Tang Clan, Apparat and The Glitch Mob have attracted worldwide attention and acclaim. de Luca's diverse music portfolio shows his passion for electronic music and hip hop and his dedication to defying conventions. His innovative, bass heavy sound is a radical and refreshing take on the stale electronic music scene.

**About Leonard de Leonard** - the man with the bushy beard is a producer, sound designer and founder of Leonizer Rec. From Shanghai to Cairo, Seoul to Berlin, Leo has been rocking clubs all over the world with his ass-kicking sets. After releasing numerous albums and EPs as a solo artist on labels like Musiques Hybrides, Ekler'o'shock and BEE Records, Leo started a new chapter with Chris de Luca, and the Delect story began...

### 1.3. What does it come with?

#### MICRO KITS 05 comes with:

- 5 Drum Kits with 16 sounds each, designed by DELECT.
- Formatted kits for Maschine, Battery, Kontakt, EXS24MK II, Ableton, Reaktor and Twisted Tools S-Layer
- 40 + Kit and Sound Generation Presets for Twisted Tools S-Layer (sold separately)
- 80 24bit/44.1khz WAV Samples

### 1.4. How do I set it up and where do I put things?

If you just plan on using the .WAV audio samples, you can put things wherever you like on your hard drive. Please note that all the samples are 24bit/44.1khz and your host software should be set accordingly.

Please see the Sampler Kits Instructions found in the Documentation folder for details on how to manage and install the content for the supported samplers.

### 1.5. Content Overview

**00\_Samples :** The sample content is conveniently organized into sub folders for each kit. Please note, that you will also find Reaktor sampler map files in the sample content folders, which is a requirement for Reaktor in order to save properly referenced maps. Please do not move these if you plan on using them.

**01\_Kits:** All the preset sampler instrument kits to use with supported 3rd party samplers.

**02\_Documentation:** Documentation and additional documentation for using the sampler instruments can be found here.

### 1.6. Sample Content and Kit Descriptions

SAMPLE NAMING CONVENTION:
